If the engine does not start or runs poorly then the spark plug may be defective and will need replacement.

<http://www.bouwdata.net/evenement/bosch-ixo-manual>

If the fuel filter is clogged, it will restrict the flow of fuel to the carburetor. As a result, the engine may not start. The flywheel key aligns the flywheel in the correct position on the crankshaft. If the engine stops suddenly due to hitting a hard object, the flywheel key shears in half to prevent damage to the engine. If the flywheel key is broken, the engine won't start. The starter gear engages the flywheel to start the engine. If the teeth on the starter gear are worn out, the engine may not start. If the carburetor is leaking, one of the float bowl gaskets may be worn out. The ignition coil sends voltage to the spark plug while the engine is running. If the ignition coil is defective, the engine may not start. If the air filter is clogged or dirty, the engine might not start, might be hard to start, or might run roughly. This filter should be replaced periodically to ensure optimal engine performance. Since 1912, we've learned to recognize the most common problems. Do any of these look familiar. Join Repair Clinics VIP email list for 10% off, plus other discounts and tips. We've got millions of parts, hundreds of brands, and thousands of step-by-step videos— everything you need to find it, fix it and finish the job right. Learn more at [privacy policy](#). Price RUB 1,880 rub. A carburetor in an internal combustion system is used for mixing air with a fine spray of liquid fuel. The main function of a carburetor is to mix air and gasoline in the correct ratio to ensure proper engine function. It can give your machine the new power and torque it really deserves. This carburetor is very durable, and also has a good working effect. It is a good aftermarket replacement for the old one. Avoid wasting oil, to some extent. Specifications. Material metal. Color show as pictures. Notes. Due to the light and screen setting difference, the items color may be slightly different from the pictures. Please allow slight dimension difference due to different manual measurement.

Here at Briggsbits, we do nothing other than provide Briggs and Stratton parts. We are not a multi manufacturer dealership so we do not have the complication of dealing with other distractions such as selling lawnmowers or parts for anything else. This means that all day, every day, we are completely focused upon Briggs and Stratton, their engines and our customers. Sad though it may seem, Briggs and Stratton part numbers are etched into our minds. All parts supplied are genuine Briggs and Stratton spare parts so you are assured of the correct fit, original quality and reliability. Regular service spare parts are all listed in the catalogue accessed from the PARTS STORE, just click on the section that your engine falls into. There is even a help page to assist in identifying your engine if needed. Some parts are listed in a kit with other items required to carry out certain common service tasks such as carburetor service, valve lapping and adjustment etc.
