The Mitsubishi Carisma is large family car produced by Japanese manufacturer Mitsubishi for European market between 1995 and 2004. It was codeveloped with Volvo and is based on first generation Volvo S40 chassis. It was available as a fourdoor saloon or a fivedoor hatchback style and produced for the European market. In spite of its name, the Carisma had a fairly neutral design as a result of being Mitsubishis first attempt to target the traditionally conservative European company car market.

During its 9 years production run, over 350,000 units were produced.Document Electrical Wiring Document Wiring Diagram Document Eletrical Wiring Supplement Document Electrical Wiring Document Eletrical Wiring Supplement Document Workshop Manual Supplement Document
